3. Curriculum intent

Pupils' learning and development is at the heart of our school's curriculum; it is broad and balanced and equips pupils with the skills necessary to succeed in life after school.

This curriculum intent statement outlines how the school has created the curriculum and the benefits it will bring to pupils' learning and self-improvement.

Curriculum intent

At Ravensdale Infant and Nursery school, our curriculum is designed to teach, promote and celebrate our 3 core values of READY, RESPECTFUL ENGAGED. We welcome and celebrate our diverse community, which stretches far beyond our school catchment area by starting each school year focussing on being RESPECTFUL individuals.

All children receive a carefully planned broad, balanced and progressive curriculum at Ravensdale Infant and Nursery School. The children are nurtured and supported to ensure that each and every one makes progress from where their learning journey begins and is able to be fully ENGAGED with all aspects of our curriculum.

The curriculum is purposeful and meaningful for our children, ensuring they have every opportunity to become life long learners. We ensure any barriers to access and success are overcome for any disadvantaged or vulnerable pupil. Our curriculum design aims to ensure a seamless transition between year groups and key stages, including being READY for their next stage of education and life beyond school.

The knowledge and skills are planned in a clear sequence, ensuring that each unit of learning builds upon prior learning and skills from FS1 to Year 2. The curriculum has been designed around a core set of progressive, subject specific knowledge and skills but the context in which these are delivered is tailored to each cohort of children, dependent on their unique needs and interests.

As a staff team, we are relentless in ensuring we offer the highest quality of education for our pupils, reflecting and developing the pedagogy of our curriculum regularly. Our golden threads of reading, outdoor learning and personal development weave their way purposefully through the curriculum design, enabling all children, staff and the wider community to 'be ambitious, spark imagination, celebrate success'.

4. School ethos and aims

The overall aims of the curriculum are to:

- Enable all pupils to understand that they are all successful learners.

5. Organisation and planning

The school's curriculum will be delivered over 190 days and will be delivered equally throughout the school week.

Each school day will be split into two sessions and pupils will receive at least one break (lunch).

In general, lessons will be separated into three core stages:

- **Introduction to the topic and thinking time** – this is the time where lesson objectives will be set.
- **A main teaching event** – this will vary day-to-day based on the teacher's plan.
- **Plenary** – this will summarise what pupils have learnt in the lesson and will address what will be covered in the next lesson.

Lessons will use a range of teaching techniques to appeal to different learning types, e.g. visual, audio and kinaesthetic.

The different learning techniques include:

- **Using different kinds of questions** to engage pupils and prompt them to apply their knowledge to different examples, e.g. using 'why' and 'how' questions.
- **Opening discussions** around topics so pupils can learn from their peers and learn how to hold conversations with others.
- **Using assessments** to test pupils' knowledge and consolidate learning; these can be through both informal and formal assessments.
- **Role playing and acting** to develop pupils' empathy and give them the opportunity to explore topics in a more interactive way.
- **Labelling, ordering and identifying** key themes within texts, dialogues and films to help pupils coordinate series' of events.
- **Written and spoken tasks** to encourage different methods of expressing ideas, as well as identifying key differences between writing and speaking conventions.

Teachers will plan lessons which are challenging for all pupils and ensure that there are provisions in place for more academically able pupils.

Teachers will plan lessons to accommodate for pupils of mixed ability, making cross-curricular links where possible.

A full list of subjects covered in school can be found in [section 7](#) of this policy.

Teachers will have due consideration for pupils who require additional help within their planning and organisation of lessons.

Disadvantaged pupils and those with SEND and EAL will receive additional support – this will include dedicated time with TAs and access to specialist resources and equipment where required.

TAs will be deployed within lessons strategically so that they can assist with pupils who require additional help, but are also able to minimise disruptions where necessary.

Pupils with EAL will be given the opportunity to develop their English ability throughout lessons where necessary.

Planning will be used to identify any possible difficulties within the curriculum and will break down barriers to learning. Any difficulties identified will be addressed at the outset of work.

Classrooms will be organised so that pupils have full access to resources and equipment – they will be provided with a rich and varied learning environment that will enable them to develop their skills and abilities.

6. Remote learning

Attendance at school is mandatory for all pupils; however, there may be circumstances where in-person attendance is either not possible or contrary to government guidance.

The school's Remote Education Policy sets out how education will be delivered if pupils cannot attend school in person.
